M.Eisa	1046	87
M.Mudassir Zahoor	977	81
Zia ur Rehman	977	81
Amaanullah	965	80
Ume Habiba	884	74

What's In This year's Issue?

- Matriculation results
- Parents day
- Fun Trips
- Sports

Matriculation Results

The Primary focus of the school is providing the highest quality education and training to our students to be able to excel in their careers and lives.

Academic performance is reviewed regularly to assure quality results.

Independence Day

The students were excited as always to celebrate August 14th, Independence Day.

The enthusiasm and the bursts of green colour could be seen all over the school as they cheered and went around town raising the beloved green flag!

VOCATIONAL CENTER

Our School in partnership with TEVTA is running a vocational centre Since two years now. These two years focused on teaching skills to girls. We are proud to announce that till date, 4 batches of girls have graduated in beautician and Stitching courses. 240 girls are now able to sustain themselves. Some have started their own small scale salons, while others have found work around town.

Annual Parents Day

The school hosted its Annual Parents Day ceremony in December 2024. The successful event was a result of tremendous planning and hard work by the teachers and students alike.

The confidence of the primary school students, coupled with the acting skills of our seniors was a treat to the eyes.

The proud parents enjoyed their kid's performances. The high achievers were also given awards by the Chief Guest.

Our Guest of Honour, CPO Sadie Ali Dogar was thoroughly impressed with the sheer magnitude of the school's infrastructure and the capabilities of our students.

Faculty and Student Trips

Each year the school plans a fun outing for the faculty and students to enjoy amidst all the hard work they put in.

This year also, the students visited a theme park and had a sunny picnic with their friends and staff.

The Principal and faculty also visited a farm and had lunch together in the natural beautiful surroundings.

This ensures a sense of community and belonging!

Sports Activities

Sports is an essential part of wellness and nurturing. It is just as important for mental well being as for the physical. At MAM School, students are encouraged to actively take part in cricket, badminton, table tennis amongst other sports. Teams compete against each other to foster healthy competition and sportsmanship. Cricket being a favorite, is awaited by our students every term!

Farewell Party

What a proud feeling it is for the Principal and the teachers to raise these students well and see them go out into the world!

The school bid farewell to its class 10th. The ceremony consisted of admiring each other's efforts and recounting the good times at MAM school.
